"The success of managed care will probably depend on the ability ... to influence physicians' choices in the direction of increased value."

-- John K. Iglehart. Managed Care. *N Engl J Med* 1992; 327: 742.

THB 12196

## I - The Executive Summary

*Physicians' Online* is a personalized online medical information and communications service dedicated to empowering physicians with the tools essential to advance the quality and control the cost of health care through informed decision-making.

*Physicians' Online* ("Company") is an innovative new electronic medium designed to evolve into a comprehensive national medical information and communications network servicing the entire health care industry. The Company's online information products and communication services provide physicians with powerful tools to manage Medical Knowledge, Prescriptions, and Patients. *Physicians' Online* provides a distribution outlet for third-party produced information products and services. *Physicians' Online* also provides valuable proprietary information services to other industry participants including managed care organizations and the pharmaceutical industry.

### **Phase I - Medical Knowledge Management**

Online medical information and communication services which are readily accessible and free of charge to member physicians through optional online advertising support. The Company has assembled the most powerful, yet user-friendly, collection of medical information tools available from leading third-party sources. The core information products target three key areas of identified information need, including medical literature (MEDLINE), medical diagnosis (QMR), and drug information (USP). *Physicians' Online* is being developed in cooperation with major medical societies, pharmaceutical manufacturers & marketing organizations, hospitals, managed care organizations, and leading technology & third-party content providers.

*Implementation: 1993 through 1994*

### **Phase II - Prescription Management**

Online prescription fulfillment and cost containment programs made possible through the use of "Smart Electronic Prescription Pads" (PDAs). This network is being developed in cooperation with managed care organizations, hospitals, pharmacists, pharmaceutical distributors, leading technology providers, and other health-care participants.

*Implementation: 1994 through 1996*

### **Phase III - Patient Management**

Online patient information for efficient retrieval and transaction processing resulting in enhanced clinical and administrative efficiency and cost-containment. This network is being developed in cooperation with corporate employee benefits programs, private health insurance carriers, out-patient laboratories, electronic claims processors, installment credit organizations, hospitals, and other health care participants.

*Implementation: 1995 through 1997*

The Company's competitive advantage is based on its ability to attract physician use. Founded by practicing physicians with extensive experience delivering practical information products to busy clinicians, the Company has developed a market-driven product strategy designed to win maximum professional acceptance and use. The Company is establishing critical strategic alliances with leading participants in every major health care market segment. The Company is currently working with several leading content and service providers to develop new products and services for this expanding multi-billion dollar market opportunity.

## Physicians' Online: 5 Year Plan

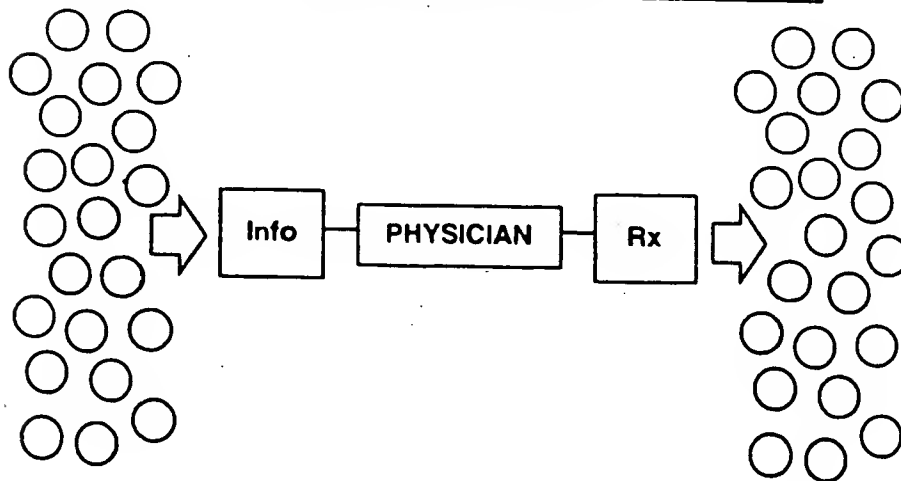

*To empower physicians with the tools essential to advance the quality and control the cost of health care through informed decision-making.*

Time Frame	Phase I 0 - 2 yr	Phase II 1 - 4 yr	Phase III 3 - 5 yr
Essential Tools	Medical Knowledge Management	Prescription Management	Patient Management
Vehicle	Physicians' Online	Pharmacists' Online Pharm Reps' Online Formulanes Online Managed Care Online	National Health Card Network
Potential Membership	500,000 physicians 10,000 pharmaceutical execs	300,000 physician offices 100,000 pharmacies 50,000 drug reps	250 million patients 10,000 hospitals other health care participants
Core Markets	MEDLINE Rx Micromarketing	Prescription Fulfillment Rx Cost-Containment	Patient Administration Cost-Containment Programs
Market Size	\$50 million / \$7 billion	>\$70 billion	>\$500 billion
